

Stacking and Customer Orders

Stacking at ACN is prohibited. Stacking is also often referred to as strategic placement, tap rooting, or building depth. Stacking is an IBO's attempt to manipulate the compensation in a marketing organization by entering the name or Team ID Number of another IBO to create rapid growth in their business.

Failure to adhere to these guidelines puts the ACN IBO and the entire ACN organization in jeopardy of legal action pursuant to an FCC challenge.

If you have any questions about this or any of our policies,
please contact the Business Ethics Department at **businessethics@acninc.com**.

We are here to help you.
