

Features by Platform

What it is	How it protects you	Windows	Mac	Android	iOS
Virtual Private Network (VPN)	The VPN feature provides online privacy by allowing you to connect to a VPN server so you can mask your IP address and send your internet data through a secure encrypted tunnel established between you and your endpoint so that you can keep your internet activity and location private. Please note that some countries and companies block the use of VPNs.	✓		✓	✓
Antivirus	IDSeal Antivirus offers protection from malicious programs that threaten personal computers and Android mobile devices that meet the Minimum System Requirements. IDSeal Antivirus utilizes active protection mechanisms that monitor, block, and alert when a threat is detected. Harmful incoming emails are blocked and quarantined and your computer can be automatically scanned for threats on a defined schedule. Easy to install and use, IDSeal Antivirus also includes extra tools and features such as a history cleaner and start-up manager to help keep your computer protected and operating efficiently.	✓		✓	
Dark Web Scanner	The dark web scanner employs a unique algorithm that allows you to search for occurrences of your passwords or email addresses in databases that have been stolen by hackers and are being bought and sold on the dark web.	✓		✓	✓
Login Encryption & Password Vault	This feature lets you scan your Device for traceable login credentials you have used with websites, portals, or service providers and then encrypt those passwords and store them in a vault for safekeeping.	✓			
Personal Profile Protection	The personal profile protection feature helps limit identifying information that could be stolen from your Device by making it easy to find and delete all the user profiles (phone numbers, email addresses, mailing addresses, credit card information, etc.) that are stored on your Device in connection with “auto-fill” functions.	✓			
Ad Blocker	Enabling this feature blocks both static and dynamic banner ads, making your browsing experience more efficient and enjoyable by allowing you to surf the web without annoying flashing banners and distracting ads.	✓	✓		✓
Safe Browsing/ Real-Time Protection and Alerts	This feature gives you confidence to browse the web freely by warning you when you encounter unsafe websites that could expose you to malware, spyware, viruses, and other malicious scripts and monitoring your Device for phishing attempts, blocking them in real time, and alerting you.	✓			

What it is	How it protects you	Windows	Mac	Android	iOS
Tracking Blocker	The tracking blocker feature works to block tracking records that include your personal digital information that can be used by third parties and hackers.	✓	✓	✓	✓
Digital Fingerprint Scrambler	This feature takes the data a website collects behind-the-scenes and uses to identify your Device, known as your “digital fingerprint”, and scrambles it either automatically or on-demand, creating a fake digital fingerprint in its place so websites won't be able to track your personal browsing patterns.	✓	✓		
Browsing Tracks Scanner and Cleaner	This feature allows you to deep clean your Device by removing browsing records, cookies, and other items that track your browsing patterns so that you can proactively reduce the chances of those credentials being stored and abused. The set-and-forget setting lets you automatically block cookies that are suspected of being privacy-risking or malicious.	✓	✓		
Sensitive Document Detection	The sensitive document detection feature locates documents on your Devices that may contain sensitive information such as bank account or credit card numbers and other personally identifying information.	✓		✓	✓
Encrypted Documents Vault	Store sensitive documents using the encrypted documents vault feature so that they are safeguarded in one secured location, both encrypted and masked, as protection against your information being found and abused.	✓			
Webcam & Microphone Blocker	This feature allows you to digitally block malicious attempts to access your Device's camera and microphone by third parties that may try to eavesdrop or peep into your personal life.	✓		✓	
Privacy Advisor	The privacy advisor feature evaluates the permissions on your Device, categorizes them by risk level, and makes recommendations regarding these settings to improve privacy. This feature is only available on Android devices.			✓	
IDSeal Cloud Backup	IDSeal Cloud Backup is a storage and recovery solution that allows you to backup data on a secure remote server and restore that data to the original location or to an alternate Device from anywhere with an internet connection.	✓	✓	✓	✓
